

# MERCURY SERIES;

MODERN ELEGANCE REDEFINED

**TiS**  
CONTROL EVERYTHING

MERCURY

WWW.TISCONTROL.COM

Designed to elevate your space, this series combines modern aesthetics with cutting-edge functionality. With its sleek design and versatile options, the Mercury Series is the perfect choice for GRMS, hotel rooms, smart homes, and other projects.

The Mercury Series offers a modular approach to home automation, allowing you to control lights, climate, and shutters with ease. Whether you're looking to create the perfect lighting scene, adjust the temperature to your liking, or manage your window coverings effortlessly, the Mercury Series has you covered.

This series features elegance in every detail: with its black, white, and silver finishes, the Mercury Series exudes elegance and style. The carefully crafted design seamlessly integrates into any environment, adding a touch of sophistication to your space. From card holders to RF readers, 2-gang to 8-gang touch switches, and AC controls, every element of the Mercury Series is thoughtfully designed to enhance your experience.

The Mercury Series is not only ideal for smart homes but also perfectly suited for hotel installations. With features like DND (Do Not Disturb) and MUR (Make Up Room) indicators, room number displays, and card switch panels, the Mercury Series caters to the unique needs of the hospitality industry. Additionally, the integration of Mayfair RF Access Control ensures seamless security and convenience for hotel guests.

# WHY CHOOSE **TIS** MERCURY SERIES?

- Perfect fit for smart homes and hotel installations
- Seamless integration with existing systems
- Versatile options for various applications
- Modular approach for enhanced control
- Modern and elegant design

Experience the future of home automation with the Mercury Series by TIS Control. Elevate your space with its modern elegance and enjoy the convenience and sophistication it brings to your everyday life!
